

Sophomores Defeat Frosh In Field Day Events, Score 8-7

Frosh Win Points in Two Events
Football Game And
Glove Fight

Sophs Win Tug-of-War Easily;
Relay Proves Deciding Event

Despite Efforts Of Field Day
Marshals, Minor Riots
Break Out

Winning three events and losing two, the Sophomores won Field Day last Friday by the close score of 8-7. The class of 1939 was victorious in crew, relay race, and the tug-of-war, but the freshmen won the football game and the glove fight.

Relay Deciding Factor
The relay race, run between the halves of the football game, proved the deciding factor. In this race the Sophomores nearly equalled the Field Day record for this run. The tug-of-war was easily won in two pulls by the heavier, more experienced Sophomore team.

Five freshmen co-eds acted as cheerleaders for their classmates. They were dressed in cardinal slacks, white shirts, and freshman ties. The five were selected from a group of twelve and wore uniforms borrowed from a local high school for the occasion. The girls were Elsie Clark, Rheeta Connel, Ruth Berman, Dorothy Betjeman and Margaret Dienes.

Marshals from the Junior and Senior classes were on hand to see that no disturbance broke out in the stands. But in spite of their efforts there were several minor riots between the yearlings and the Sophomores. The chief one of these broke out when a string of pajamas stolen from the Sophomores the day before were strung out from the dormitory rooftops. The Sophomores broke out of the stands to tear them down, and in the fight that ensued between the Sophomores and the marshals the pajamas were ripped to shreds.

Coach Oscar Hedlund's predictions were right in all but one instance and that, the football game, he said that would be the closest battle of the day.

A.S.U. To Plan Peace Institute

Will Also Submit Constitution
To Institute Committee
For Approval

Plans for a Peace Institute, to be conducted by the American Student Union sometime this fall, will be laid before the Institute Committee for approval this Thursday. The A. S. U. will also submit their constitution, the approval of which will mean official recognition.

This afternoon at five o'clock in the East Lounge of Walker, plans will be discussed for a peace meeting, to be held in commemoration of Armistice Day, next Thursday. Further details will be announced later.

Jack Marshard Plays For Field Day Dance

The Field Day Dance sponsored by the dormitories and featuring the music of Jack Marshard and his Bar Harbor Club orchestra was held in Walker Memorial last Friday evening following Field Day.

The chaperones included Mrs. Karl T. Compton, Mr. and Mrs. D. L. Rhind, Professor and Mrs. Leicester Hamilton, Dr. Avery Ashdown, Mrs. Horace Ford, and Mrs. James R. Jack. Lloyd Ewing, '38, chairman of the Dance Committee, welcomed the guests and offered them the facilities of the Grill Room.

Prom Nomination Papers Approved By Elections Comm.

Five Men Out Of Nineteen To Be
Elected On Wednesday,
November 4

Kolb Is Committee Chairman

The nomination papers of nineteen candidates for the Junior Prom Committee were approved by the Elections Committee and released to The Tech yesterday. In the election to be held on Wednesday, November 4, in both the Main Lobby and the Rogers Building between 8:30 A. M. and 5:20 P. M., five men will be chosen. Together with Frederick J. Kolb, Jr., President of the Class of 1938 and chairman of the committee ex officio, the committeemen will lay plans for the Junior Prom, which is always one of the most prominent affairs of the season.

Frosh Donate Gift To Coach Beverage

Lobdell Also Presents Cabot
Medals At Field Day
Banquet

High praise was given freshman football coach Alby Beverage at the annual Field Day Banquet last Friday in Walker Memorial, attended by over 100 people. Beverage was presented with a gift from the victorious freshman football team.

Master of ceremonies Ralph T. Jope, secretary of the committee on athletics, opened the banquet with an explanation of the traditions that have come down to the present day. Each member rose and introduced himself to the assemblage.

After the banquet was over, Dean Lobdell presented the Cabot Medals to the five Sophomores who made the greatest improvement in their physical development during the past year.

Cornell Takes First Place In Intercol. Dinghy Contest

Technology Takes Second Place,
Brown And Harvard
Third, Fourth

Cornell defeated Technology in its own dinghies last Sunday by a score of 89 points to Tech's 83 1-2. The sailing intercollegiate, sponsored by the Nautical Association, resulted in close sailing all day, with Technology in the lead first, to be finally overtaken and passed by Cornell.

The two winning teams were Dick Bertram, skipper, and Irwin Tyson, crew, and Albert Hayes, skipper, with Runyon Colie, of Technology, who took the place of a missing Cornell crew.

The contest was definitely in favor of the engineers when the time came to exchange boats, Technology having 52 points, Brown 49, Harvard 48, Princeton 52, and Cornell in fifth place with 35. As soon as boats were exchanged, however, Tyson of Cornell began to gain points rapidly, finally passing the Institute's score to give Cornell the final high score.

The final order of teams was Cornell, 89; Technology, 83½; Brown, 80; Harvard, 76; Princeton, 68½; Williams, '59; Dartmouth and Rhode Island State, 54 each, Boston College and Tufts, 5, each, Yale, 46, Holy Cross, 43, New Hampshire, 40, and Colby, 31.

Prom Nominations Below, Five to be Elected Nov. 4

The following men are candidates for positions on the Junior Prom Committee:

Jay P. AuWerter, Edouard R. Bossange, Jr., John G. Burke, John R. Cook, C. Kingsland Coombs, Lloyd R. Ewing, Fred P. Forman, Leo C. McEvoy, Bernard W. Mehren, J. Arthur Montgomery, Richard K. Muther, Samuel Rudginsky, Livingston S. Smith, Andrew P. Stergion, Frederick E. Ssrassner, Harold H. Strauss, David A. Wright, D. Donald Weir.

Tech Show Script Now Being Written

Survey To Be Made To Find
Extent Of Student
Interest

"Since the announcement last Tuesday of a twenty-five dollar prize for a script for Tech Show, three scripts have been started and are in the process of being written," stated Robert J. Moffett, '37, elected general manager of the show last spring. Moffett further said that Tech Show also desired music and lyrics.

The general manager added that student opinion was running high in favor of the show and that Tech Show would soon conduct a survey among the students to prove their interest in its continuing. Students from Smith and Amherst have indicated the success of last year's presentation because Tech Show has been invited to play again in Northampton.

Recognition of Tech Show was withdrawn by the Institute Committee at the end of last term. The Show had been an annual feature at the Institute, and was considered a major activity. Its constitution was revoked by the Institute Committee because of the small net profit made on the last show and the detriment caused by the long hours of practice to the ratings of the students engaged in the activity.

If there is sufficient student support, as Tech Show expects to prove by the student survey, the show will petition for re-recognition by the Institute Committee.

Faculty Club Social To Be Held Wed.

Dinner And Movies On Program,
Dancing To Ken Reeves
Will Follow

A dinner, motion pictures, and dancing to the music of Ken Reeves orchestra are included on the program for the first Faculty Club social of the year, tomorrow evening, at the Hotel Commander in Cambridge.

Professor George Russell, president of the Faculty Club, will preside at the dinner. Hugh H. Clegg, assistant director of the Federal Bureau of Investigation, will deliver an after-dinner speech on the "Work and Adventures of the G-Men".

The motion pictures, entitled "Seeing the Unseen," will show new pictures of motion taken with a high speed camera. They will be presented by Professor Harold E. Edgerton.

For those who do not desire to dance, there will be facilities for bridge. Members of the Faculty Club and their wives are invited.

Gym, Auditorium Tilt Tomorrow; Compton Speaks

T.C.A. Opens Drive; First Pledges In

Fraternities At Top Of List;
Then Dorms, Commuter
Contributions

Late Bulletin:—A total of \$1,452.75 was reported pledged to the T. C. A. during the first day of the T. C. A. annual drive. This report, given late last night, includes the Dormitories, Fraternities, and Commuters.

Dormitories	\$ 187.00
Fraternities	1202.25
Commuters	63.50

Total \$1452.75

The T. C. A. opened its annual four-day drive at a dinner last night as William B. Burnet, '37, president of the T. C. A., urged contributions from dormitory and commuter drive workers to form the nucleus of the fund. These workers and those from the fraternities who attended a dinner on Thursday gave about \$275.

Blue feathers will distinguish contributors this year and a football on a gridiron will indicate the progress of the campaign toward its goal. The name of each student is printed on a card that will reach him through his section worker. Besides the football field, undergraduate dormitory, graduate dormitory and fraternity progress charts with a comparative standing chart will appear in the Main Lobby this week. Daily contributions will be reported to the T. C. A. office each evening and will be posted next morning.

The various activities of the T. C. A. such as Tech Cabin, the employment bureau, freshman camp, the handbook and ticket service will require a budget. (Continued on Page 4)

T. C. A. Drive

Dramashop To Work With Wellesley Club In Winter Production

Radcliffe And Simmons May Ask
Aid Of Tech Actors
In Their Plays

Co-operation with the Barnswallows, Wellesley dramatic organization, has been requested of the Dramashop, its Technology counterpart. Tryouts will be conducted by Wellesley in Room 2-178 on Wednesday and Thursday of this week at 5:00 P.M.

Although the Barnswallows have not yet selected a play, among those under consideration is Shaw's "Pygmalion." Rehearsals will be held at Wellesley for the December production, and members of the cast will be reimbursed for participation as well as for transportation both to and from the girl's college.

Two other women's dramatics groups have requested male members of their casts from the Dramashop. Tryouts for the Radcliffe play for this season were held last week at Radcliffe. Simmons will notify the Technology dramatic organization definitely of its plans shortly.

Dramashop is producing two plays of its own this year, one for public and one for private performance. Open to general public will be "The Ghost Train" on November 19, 20, and 21. A private performance of "The Importance of Beinb Ernest" by Oscar Wilde will be presented in December.

Tech Union Meeting Is Declared Open To All Students

Coach Hedlund, Prof. Greene
Take Opposite Sides In Fight

Investigating Committee Will
Consider Result Of Vote
Taken At Meeting

With the President Karl T. Compton listed as one of the main speakers, Tech Union's discussion meeting on the gym vs. auditorium question scheduled for tomorrow evening at 8 P.M. in the Eastman lecture hall, will be thrown open to all students or members of the faculty, the Union Steering Committee announced last night.

Coach Oscar Hedlund of track will oppose Professor William C. Greene of the English department in the airing of views on the topic that has probably aroused more student interest than any other question in recent months. Originally scheduled to have been a closed meeting for members of the union only, the discussion has been declared wide open because of the volume of interest indicated by students.

While the result of the vote at tomorrow's meeting will not settle the matter, it is expected to have considerable influence on the committee which is investigating the relative needs and merits of each of the two proposals.

Compton To Outline Subject

President Compton is expected to outline the question, reiterating the remarks made by him in his recommendation to the corporation in regard to the student welfare portion of the \$12,500,000 expansion program. Hedlund will argue for the gymnasium, while Professor Greene, who has been coach of Tech Show, supports the auditorium.

After the main speeches, the members of the audience are permitted to direct questions to the speakers or (Continued on Page 4)

Tau Beta Pi Chose Seventeen Members

Highest Honor At Tech Given
For Scholastic Rating
And Character

Tau Beta Pi, the national honorary engineering fraternity inducts fifteen seniors and juniors into its ranks Thursday night in its annual initiation ceremonies, held this year at the Engineer's Club.

Recognized as the highest honor attainable at Technology, membership in Tau Beta Pi depends not only on high scholastic rating, but also on the character and integrity of the candidates, and their interest in Institute activities.

Tau Beta Pi was founded at Lehigh University over fifty years ago with the object of fostering broadness of interest in engineering. The membership today stands at over 22,000 men from all the engineering colleges in the United States. The chapter roll of the Massachusetts Beta Chapter, at Technology, shows that 480 Institute men have achieved this honor in the fourteen years since the establishment of the chapter.

HEAR BOTH SIDES

TECHNOLOGY UNION MEETING

ALTHOUGH The Tech has taken a definite stand on the question of whether an auditorium or a new gymnasium should be built first in the Technology expansion program, it will also stand behind the logical discussion of the problem in the style which has been adopted by the Tech Union.

At the meeting tomorrow evening will be a chance for the whole student body, no one excluded, to literally stand up and hash over the whole question and advance all the personal views which may be lying hidden in the several minds.

Several speakers will be there, including the President of the Institute, to give the main speeches and form a basis for the open forum discussion which is to follow. If you think that the approximate \$600 of which the Institute spends generally for ice and ice water annually is an excess in view of the fact that nothing is spent for dramatics, music, or debating, here is your chance to say so in so many words.

Here is your chance to be instrumental in the disbursement of a portion of the money which the Institute proposed to solicit. Even more than that, it is your duty to see that you submit your bit during the discussion in order that the outcome of the meeting may not be a one sided and an erroneous indication of the student sentiment on the matter.

SOCIAL SERVICE

UNDER THE T. C. A.

ALMOST hidden away in the budget of the T. C. A. for the coming year is an item of expenditure of twenty five dollars for social work. When one considers the merits of this organization in connection with their current drive for funds, this phase of their activity should not be overlooked.

The social work in which members of the T. C. A. are active is varied in scope. Certain of their members act as group leaders in settlement work in the slums of Boston. Others teach classes of immigrants who want to learn English in order to take out naturalization papers. Tech students often act as scoutmasters in the Boy Scout movements. As other opportunities for service arise, the T. C. A. takes them under its wing. For example, various Boston groups have called the offices and asked for ushers to serve at their functions. The T. C. A. supplied them.

In evaluating these services one cannot overlook the resultant social benefits which accrue to the community. However, there is much more to the matter than that. The personal experience which those engaging in this work get is invaluable. Not only do they get to know people, which in itself is quite an ac-

complishment, but they enlarge their field of thought by becoming intimately acquainted with the problems of the underprivileged.

This is of special significance at the present time in connection with the letter recently sent by President Roosevelt to the heads of engineering schools. In this letter the President emphasized the need for inculcating in the engineers of tomorrow a set of social values and an idea of the social significance of their work. What better way is there to get to know the problem of what to do about the increasing number of unfortunates in our social system than by rolling up the shirtsleeves and finding out about the situation at first hand? In creating a number of students well-informed about social problems and cognizant of their importance, the T. C. A. is performing a real service to the community.

NEW CONFIDENCE

IN A NEW MODE OF TRAVEL

WORD comes from Germany that construction has started on a new airship, a sister ship to the Hindenberg, and from Washington comes word that Secretary Roper and Dr. Hugo Eckener have mapped out tentative plans for the consolidation of commercial and engineering resources in the establishment of a regular airship service across the Atlantic.

With a series of air disasters in the past, America has proven what the airship cannot do in rough weather. Dr. Eckener, seemingly, has proven what airships can do in fair weather and under a regular schedule of commercial transit across the Atlantic.

Perhaps America should have taken the hint long ago to seek the co-operation of the one nation which seems to have been the only successful pioneer in the design and operation of lighter than air craft. At about the time when every large airship in the United States had met its doom, accompanied in each case with a disastrous loss of lives, this country was ready to give up and conclude that the theory of lighter than air craft was not sound and that no good could ever come of trying to navigate these unwieldy masses through the air.

But the German designers and operators have had a degree of success from the start, and the record of the Hindenberg is spotless. If America wants success in airship travel, she has gone to the right place. Of course we are all wondering whether or not this alliance will stir up trouble internationally.

Odds and Ends:

Seen driving away from Walker . . . truck with "Meat Scraps" emblazoned on the sides . . . last year it was Rival's Dog Food . . .

Some people just can't remember that they're not average Americans.

John Roosevelt speaking that his father's policies "will make a better world for me to live in." Maybe so John, but how about the rest of us whose fathers are not ex-presidents?

Lounger sub 1 also has commentaries and observations suitable to the season as follows:

Professor Roberts gave in his "History of Thought" section, the last word on the subject of "What's the Matter with the Wars Nowadays?" "You Engineers have taken all the fun out of war" he told his class, portraying for them the joys and glories of personal combat in mediaeval days between armored knights on horseback.

Talk of battle leading inevitably to talk of Field Day, the Herr Professor continued spewing pearls to the swine and accused the class (Sophomores, by the way) of being a bunch of softies, living the luxurious life they did, and it was no wonder they had to blow off steam. "If you led a natural life," said he, "you wouldn't do such silly things in your spare time." "Spare time" forsooth! The joke's on you, Professor; that's the time they should spend working on your theses!

What little help they get is in the form of allotments of from \$30 to \$100 by action of the Institute Committee. "They are on their own," was the statement from the Treasurer's office regarding these activities.

Chess Club Seeking Institute Recognition

A meeting of those interested in reviving the Technology Chess Club was held last Saturday afternoon in the East Lounge of Walker. Herbert Jaffe, '39, who called the meeting, told those attending that he hoped for recognition by the Institute Committee. He also spoke of the possibility of several radio matches.

It was decided that future meetings of the proposed club are to be held every Saturday at one o'clock in the East Lounge of Walker. Anybody interested in playing Chess is invited to attend these meetings.

Reviews and Previews

METROPOLITAN:—Another football picture comes to town in "Pigskin Parade", with a slightly different plot in which a small Texas college finds itself matched by mistake with a big time Eastern team. On the stage are "Wackey Family" Tim Ryan and Irene Moblette, Ted Allen "Barnyard Golf Champion of the World" and others.

FINE ARTS:—We have nearly achieved our lifelong ambition—to attend a special showing of a picture especially for the reviewer of The Tech. We counted exactly seven other persons in the audience at the Fine Arts and as one of these was a Harvard man there were really only seven in all. None of the aforementioned being under seventeen years of age, the Fine Arts is, as far as we're concerned, something akin to a movie reviewer's idea of Heaven.

Perhaps because of the atmosphere we appreciated the picture somewhat more than it deserved when judged on the same basis as productions at other and more brat-infested theatres.

That the picture does not completely reach the goal to which it aspires—that it is not quite "sophisticated humor", that some of the situations are not exactly right do not detract too much from the effect of the whole. If you expect broad humor, you are likely to be disappointed; Soak The Rich uses slapstick methods to attain more subtle satire. It is the secondary implication which makes the picture worth seeing.

Freshman Eleven Scores 6-0 Win Over Sophomores

Yearlings On Defensive Until Fourth Quarter When Scott Scores

Frosh Goal Due To Soph Fumble

Upsetting Coach Hedlund's predictions, the frosh football team tore into the Sophomore eleven in the annual Field Day last Friday and proceeded to outplay the Sophomores in every department of the game except kicking. The fray ended up with the frosh on top 6-0, as the result of a fourth period touchdown.

Following Coach Alby Beverage's instructions, the freshmen played defensively until the last period and kept the Sophomores from scoring at all costs. The ball remained out of freshman territory for the entire first half and part of the third period.

At the third quarter when the change of goals brought the wind to their backs, the freshmen took to an aerial attack which brought them deep in Sophomore territory before they lost the ball. When a freshman recovered a fumble on the Sophomore thirty yard stripe, a pass from McCuen to Ben Boshier gained twenty-eight yards, and Scott scored on the next play through center. The try for point failed.

Beaver Harriers Lose In Tri Meet

Runners Lose For Fourth Time; Northeastern, Tufts Win, Place

With the jinx that has been following them all season still at their heels, the Beaver harriers were defeated for the fourth consecutive time in a triangular meet with Northeastern and Tufts at Franklin Park last Saturday.

The final score was: Northeastern, 29; Tufts, 45; and M. I. T., 63. Coach Hedlund said that, frankly, he was disappointed at the results. He feels that the team is capable of doing much better, and that the men were over-tired from Field Day Participation.

The freshmen made a good showing by winning second place. Outstanding among the frosh was H. T. Wirth, who has shown outstanding merit in both this and the Quincy High meets.

Despite the showing which he and his team made this season, Coach Hedlund is very optimistic about the New England Intercollegiate meet which will take place next Saturday at Franklin Park. He has great confidence in his men and he feels that their luck is about due for a change.

Sophs, 3-1 Favorites Take Tug-of-War, Frosh Get Muddy

Precise Timing, Extra Weight Responsible For Soph Victory

Registering two points by winning the tug-of-war in straight pulls, the Sophomores, 3-1 favorites, clinched Field Day for their class. The losing frosh team was pulled through the muck of the prepared mud pit. This is the first year a pit has been used in the annual tug-of-war.

Under the excellent timing of Counter the Sophomores pulled the lighter and less experienced freshmen through the mud. The gun for the first pull caught both teams off balance; the freshmen were the first to recover and pulled the Sophs a few feet. The Sophs dug in at once and then began to win back their losing ground. Their precise timing, with a smooth, slow and steady pull, soon

Sophomore Crew Wins In Close Race Friday

Freshman Pace Proves To Be Too Fast To Hold

Coming from behind in the last half mile, the Sophomores scored an easy victory over the frosh oarsmen in the annual Field Day crew race on the mile course of the Charles last Friday.

Although the freshmen took the lead at the very beginning of the race, they could not keep up their fast pace. The Sophomores who had maintained a comfortable rhythm from the very beginning, were still behind at Harvard bridge. At this point the frosh stroke began to get ragged, and the Sophomores, realizing that they were behind, quickened their stroke and took the lead, crossing the line in 5:47 3-5. Freshman time was 5:59 2-5.

General opinion, as voiced by Manager Dunn, was that the race was won only by the greater experience of the victors.

Freshmen Lose Relay When Runner Falls

The annual Field Day relay was turned from what seemed to be a close race into a romp for the Sophomores by a freshman stumble. The Sophs took the lead at the gun, but before long the freshmen caught up to them and for a while both teams were running neck and neck.

Suddenly the "breaks" came and a freshman slipped while passing the baton and fell. This mishap enabled the Sophs to obtain a good lead, which they never relinquished. The Sophs won in 4:58, receiving three points towards the final Field Day score and the freshmen finished in 5:04 4-5.

to add their own views on the subject. One of the most spirited discussions in the history of the union is expected as groups favoring each project are to have representatives to present their respective points of view.

Union has no platform

Technology Union was organized three years ago by a group of prominent undergraduates as a subsidiary of the Debating Society for the purpose of bringing before the student body important issues and men qualified to speak on both sides of these issues. Modeled after the famed Oxford Union of England, the Tech Union has no platform of any kind, nor does it seek to impress any point of view on its various audiences. Un-

Catholic Club Holds Supper Meeting With Simmons Newman

Chemistry Professor From B. C. To Be Guest Speaker For Evening

The Technology Catholic Club will hold a combined supper meeting with the Simmons Newman Club Thursday, November 5, at 6 P. M. in North Hall of Walker, followed by a dance in the 5:15 Club Room.

A Professor of Chemistry from Boston College, whose name was not announced, will be the guest speaker of the evening.

The committee in charge feels confident that the affair will be a success in view of the fact that last year over 100 young people attended the affair. This year, the committee announces an even greater sign-up.

Among those invited to attend the party are: Professor Copithorne, Professor Mitsch and the Rev. Father Quinlan. Men who have not obtained tickets may do so at the door.

affiliated with any partisan organizations, the Tech Union stands for the impartial examination of all ideas brought before it, according to John J. Wallace, '38, chairman of the Union Steering Committee. Last year the union parted company with the Debating Society and was recognized as a separate activity. Its meeting subjects last ranged all the way from a discussion economic nationalism to a question of the value of a college education into women, in which students from Wellesley college were guest speakers.

LOUNGER

(Continued from Page 2)

The Lounger, on one of his rambles the other evening, became slightly overheated. Passing an enterprising establishment where good-cheer was sold, he boldly ventured through the swinging doors to purchase his favorite brew.

After seating himself at the bar, his leering eye spied a 50c piece. He filched it. The coin had evidently been neglected by the bar-tender. Placing his right hand over the coin, he proceeded to order a 30c drink instead of his usual 10c purchase. The bar-tender in good faith rang up a cash sale for 30c and returned 20c in change. After the refreshing pause, the Lounger left the scene of his reverie and again proceeded to wander through the streets.

Hardly an hour passed before his troubled conscience forced him to retrace his steps and confess.

They never could decide how much he owed the bar-tender.

Tug-of-War

(Continued from Page 3)

showed their superiority and in 35 seconds they had pulled the freshmen over the line.

The freshmen put up a stubborn resistance in the second pull, but they were on the defensive all the time. Slowly they had to give way to the more experienced Sophomores who proceeded to drag them through the mud again after winning the second and final pull in 40 seconds.

Chinese Students Form Two Teams

Wu and Hyui Elected Captain, Manager of Basketball Team

In a meeting of the Chinese Student Club of M. I. T. in the East Lounge, Walker Memorial, on Friday at 5:30 P. M., a basket ball and tennis team were formed.

I. L. Wu, G. and V. S. Hyui, G. were unanimously elected as captain and manager respectively for the basket ball team. The new team will start practice and tryouts early in order to be in shape for coming matches. Wu and Hyui were both formerly members of the St. John University basket ball team in Shanghai.

All Institute basket ball teams that wish to arrange matches should call up the captain or the manager for information. The tennis team will not actually function until the next tennis season.

get of \$3350 this year. This amount is expected by Friday at 6:00 P. M. when the drive closes.

"The Technology Christian Association aims to be of practical service to every student at the Institute, to help every man to live up to the best that is in him and to help Technology to realize her highest ideals; "according to the Handbook". The latter also states, "Although much religious and social work is done in connection with the functions undertaken by the Association an emphasis is placed on rendering service to the school and offering assistance in every way possible to anyone who is in need of it."

The money from this drive serves to finance the Association.

PURE...and of finer texture than most anything that touches your lips...

We all agree on this... cigarette paper is important. For Chesterfield we use the best paper that we can buy. It is called Champagne Cigarette Paper. It is made from the soft, silky fibre of the flax plant. It is washed over and over in clear, sparkling water.

A lot of the pleasure you get in smoking Chesterfields is due to our using the right kind of cigarette paper. Chesterfield paper is pure, and it burns without taste or odor.

Chesterfield

They're Milder and They Satisfy

Remember this... two things make the smoking quality of a cigarette—the tobaccos and the paper. The Champagne cigarette paper on Chesterfields is tested over and over for purity, for the right burning quality. Another reason why Chesterfield wins.
